24TH-Series Threadless Hanger

QUICK. CLEAN. EFFICIENT.

The 24TH-series threadless hanger from Dixon[®] Sanitary introduces a new level of efficiency and hygienic design to the hanger market.

This tube hanger incorporates a snap-secure latch system making installation 10x faster while eliminating the standard thread design. The self-contained inserts guide and protect your tubing.

Applications

- Mounted processing lines
- Skid building

Sizes

• 1", 1-1/2", 2", 3", 4"

Features

- · Partial open position allows for adjustment of tubing prior to final lock in
- · Threadless design and bacteria-resistant architecture
- The snap-in insert assembly makes this hanger easy to assemble
 Optionally compatible with our standard sleeves (inserts removed)
- · Save time on installation with no tools needed
- · Can weld mounting rod to hanger and support structure
- Meets MSS SP-58 load ratings
